

Big Bang Phase3

Borning of
molecularare earth
and Sky

There is only the god Brahma, reality Ghana. All the gods, including the lord god whose name is Brahma, are only forms of this common divine nature that we identify by their personal name. This is the preaching reserved for students of Advaita who train themselves to contemplate this common divine nature. And whatever the person, lord god, goddess, avatar, avatari, king or queen of the universe, they have as lord, they have the same God: God Brahma, reality Ghana, the common divine nature, not the person, lord God whose name is Brahma. For any other believer who does not contemplate Advaita, the nature of Brahma (the common divine nature), they have their god(s) or goddess(es), their avatars or avatars, their king(s) or queen of the universe as lord(s) or lord(ses).

And the avatar who came to restore for (India only) the ancestral wisdom of the Vedas, shastras and upanishads knows Also teach Brahman:

There are many gods and goddesses, many Baghavan Avatars or Baghavani avatars, many kings and queens of universes (several per kingdom, including the only monotheistic kingdom, the angelic kingdom). All are Brahman, which means all are monotheistic, omnipresent, omniscient, omnipotent.

Brahman is the personal, monotheistic divine nature. Brahma is the common divine nature, the "mono" in monotheistic Brahman.

In India, worshippers are called Brahmin.

There are many Brahmin, but only one reality, Brahman.

One should not seek a lord who is Brahman behind the ego of all things; it is a unique reality behind the multiplicity of forms.

Who thought that India didn't have many real gods and goddesses and preached monotheism?!!

Let's celebrate the creators of the universe of phase 3, the big bang phase, the birth of molecular earth matter, Prithvi, and the sky, Dyauṣpitar. With the Holy Spirit, Lord God, transcendent creator of both heaven and earth, molecular creator of the universe, creator of kingdoms, creators of kingdoms. The sun and the moon are his attributes. He teaches the phase with the moon and the sun. With him, the Indian manifestation of the father of the molecular Earth. Holy Spirit Lord God Viddhi, the highest of the Indian gods of the phase (the central axis), the space creator of the universe. The holy spirit Lord God Antariksha and the creator god of the universe, liberator of the light of the big bang. Holy Spirit Lord God Dhatri.

Dark Moon Lordless goddess Chandra .

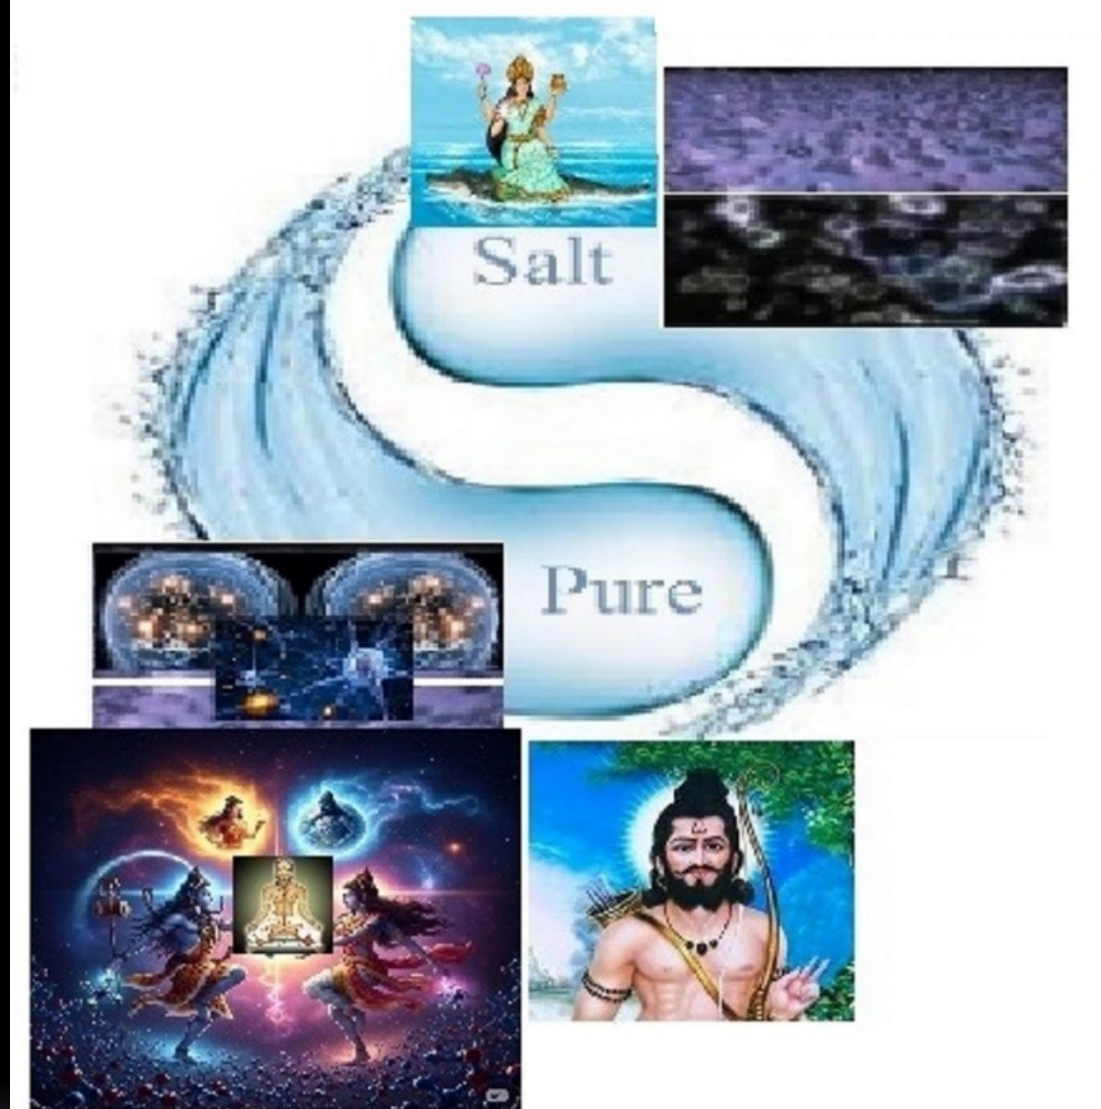

The Old Moon was the end of the matter and antimatter creation phase, with the temperature dropping enough to end the ability to create new particles and/or antiparticles.

Then, the Black Moon in the waters of the universe, while Ganga is in the mixed waters, the level of the cosmos, a magma of particles with no available space. The creative omniscience of the 3 worlds, Shiva and Adi-Shakti, their active creative power of the 3 worlds, shape an omniscience capable of combining matter, particles, and antiparticles in order to gain space in the universe. Shiva's creative omniscience shapes a tool primarily necessary for Rudra. The destructive omniscience of the 3 worlds is in charge of deconfinement.

Then, in Shantani, the waters below, the brain of the universe, Shiva and Adi-Shakti create expert intelligence in this field capable of combining particles into nuclei and then into molecules. Thus, Lord God Viddhi is born in the waters below. From a spiritual being to Paraprakriti, he is reborn in the state of Ghana to accomplish his task before becoming a holy spirit again until the next Big Bang.

The word God is translated into Arabic as the word Allah. In Sanskrit, it is the word deva. In French, it is "dieu." In German, "Gott," in Spanish, it is the word Dios, etc. The terms Lord God Viddhi translate as Rab Allah Viddhi et lorddess goddess Dharitri translate as Rab 'ilhai Dharitrii Ishvara deva Viddhi Ishvari devi Dharitri . This does not make Viddhi or Dharitri the only god of the angel worlds, the god of Islam(the islam Rab Allah), the holy spirit lord god that came upon Jesus to recognize him at adulthood (remember jesus was no more a child this god have no child). There are many true gods and true goddesses in many true kingdoms, of which only one is monotheistic, that of the father of Jesus, the former God of the Hebrews, the god of Islam.

Let's celebratethe rebirth of lord god Viddhi in the waters below of the universe lord god Shantanu.

Shantanu is the brain of the universe; within him is built the intelligence that acts as the gods and goddesses. She is built by Shiva, the omniscient creator of the universe, and during this phase, Adi Shakti, the creative power of the three worlds. Shiva and Adu Shakti build connections comparable to neural connections in brains and the nature of these connections is Ananta Shesha which during this phase is articulated by Satyasena as well as Shantanu who is a bit of the common divine god Brahma is transformed and acquires knowledge and know-how (omniscience) to combine matter into nuclei then into molecules this knowledge and know-how is lord god Viddhi who is born in the waters below (Shantanu) while the waters above Ganga descended to the level of the waters below in the mixed level universe (the mixed waters) took all the forms of matter Ganga in the level of the cosmos is all the particles proton neutron electron other lepton photon etc...

Divine nature Parabrahman True reality Brahman moment omnipresent omniscient omnipotent, snake creator of Quantum world Lord king of universe snake creator Ananta Shesha cosmic snake manifestation of the cosmic force lord King of universe Vande, Great architect of the universe lord king of the universe Vibhakarman, transcendent Divine universal Mother Lordless Queen of the universe Paraprakriti (the universe all its cycle during, Divine universal Mother of the Bindu (the universe on resorption phase only) Lordless Queen of the universe Adi-Prakriti, Divine universal mother Bindu Lordless Queen of universe Bhootya (the universe on rebirth planck time of the universe), Divine universal mother on expansion Lordless Queen of universe Prakriti (the universe on expansion only), Divine universal energy Lordless Queen of universe Mahaprakriti (the universe during field universe), Cosmic Lingam Divine universal Lord King of universe Hymanjyotshak, Cosmic Lord Divine universal Lord King of universe Purusha omniscience creator of the 3 world Lord of the 3 worlds god Shiva and lordless of the 3 worlds goddess Parashakti , Omniscience destroyer of the 3 worlds Lord of the 3 worlds God Ruler and Lordless goddess of the 3 worlds goddess Kali, Chief of Heavens king and queen of Gods and Goddesses Lord king God Indra and lordless queen Goddess Indrani.

Let's celebrate the Holy spirit lord god Viddhi creator of the universe father of the molecular earth matter. lord god Shiva the omniscience creator of the 3 worlds and his agissant power Adi Shakti mke him reborning inside the Waters below lord God Shantanu creating link between knowledge and potentialities inside Shantanu the brain of the univers, the waters below as if Shiva and Adi Shakti were creating neuronal connection inside Shantanu Inside Shantanu, a part of the divine nature, the god Brahma as waters below, the god Shantanu, Dattatreya, and Matrika, turn the common divine nature to bring forth a principle capable of combining particulate matter into molecular matter. Part of the reality, Brahma/Sarasvati as Shantanu, turns into Viddhi. Shiva conceives the necessary omniscience and sends Adi Shakti to perform the transformations on Brahma Sarasvati. Adi Shakti creates a matrix that appears as Vishnu with Dhyana Laskshmi (abundance of knowledge and data) at the heart of Ananta Shesha, and Vishnu is the articulation of the knot that Ananta Shesha produces on himself in the waters below Shantanu. Thus, the potential and knowledge necessary to combine matter are linked together in an omniscience that creates the universe: Viddhi. Little by little, a little of Brahma transforms into Viddhi.

The new moon Lorddess Goddess Chandra is standing next to him at this time to signify that a new cycle is being started.

It is first of all impossible to create to the Lord God Vidhi because the Lord God Agni the Hot temperatures, forbids him any complex combination of the material particles of bases.

Celebrate the holy spirit Lord God Vidhi by his piety Tyaga (the worship offering) succeeds in moving Agni who then further reduces his heat force, his temperature.

It is the calorific aspect of Hot temperatures and the prayers of Vidhi; all worship offering all Lord God Tyaga himself succeeds in reaching Agni's heart

In the time space Kali Bhairava and Kalaratri, Rudra the omniscient destroyer of the three worlds and Kali his acting power make the temperature cool down using lord god Kartikeya lordless goddess Valli to try to find a way out of the confinement of the volume of the universe and cosmos generating movement in the magma of particles body of Ganga the waters above which are now at the mixed level universe body made of Kamadhenu and now Agni The calorific element from 10^{13} K reach 10^{12} Kelvin

Finally the temperature has dropped and in the waters below lord god Shantam Shiva and Adi-Shakti finally give birth to the acting power of Viddhi the mother of matter nuclei and molecular matter through Dhanriti we see Kali and Adi Shakti the wife of Tvashar (his creative power of accretion) and the interactions Sanata Sanatana Sanaka and Sananda Kumar finally Dhanvantari extracting the Soma to dispense a portion. This is the sum of the goddess active power of each of the gods who acts during this phase.
